Bristol Benchmark compressor (model HT1J303QDV4)

`Model: HT1J303QDV4`

Brand: Bristol

Category: Compressors

Hermetic reciprocating compressor from Bristol's Benchmark line, model HT1J303QDV4.

DESCRIPTION

The Bristol Benchmark HT1J303QDV4 is a hermetic reciprocating compressor with the black dome housing characteristic of Bristol's Benchmark line. The nameplate on the shell confirms the model number HT1J303QDV4 along with a CE mark and "Made in USA" origin, and the unit carries a yellow electrical-hazard warning label near the terminal box. Copper suction and discharge stub tubes extend from the housing, and the compressor sits on a mounting base with rubber feet for vibration isolation.
