Dover R1234YF Refrigerant Gas (800g Can)

`Model: R1234YF`

Category: Gas

Dover R1234YF refrigerant in an 800 g can, a smaller top-up format of the same automotive gas.

DESCRIPTION

This Dover R1234YF refrigerant is supplied in a compact 800 g can with a white and red label, matching the model number and net weight of this listing. The label lists the contents as 2,3,3,3-tetrafluoroethane at 99.9% or greater purity (CAS 754-12-1) and carries an inflammable-gas hazard diamond (UN 3161, Class 2). It is a smaller-format alternative to the bulk cylinder sizes for topping up or servicing R1234YF automotive A/C systems.
