Rotary compressor 2K28C226A

`Model: 2K28C226A`

Brand: Panasonic

Category: Compressors

Panasonic 2K28C226A rotary compressor, thermally protected, single-phase 220V/60Hz per its label.

DESCRIPTION

This is a genuine Panasonic 2K28C226A rotary compressor, confirmed by the manufacturer's label affixed to the unit, which specifies thermally protected, single-phase, 60Hz, 220V operation. It has a black hermetic shell with an accumulator vessel mounted alongside the main body, copper pipe stubs at the top, a bilingual (English/Chinese) hazard warning label, and an oval mounting base.
