RTS bipolar-safety rod thermostat

`Model: RTS`

Brand: Thermowatt

Category: Heater

Thermowatt RTS bipolar-safety rod thermostat, rated 16A 250V, for electric water heaters.

DESCRIPTION

This RTS thermostat from Thermowatt is a bipolar-safety rod-type immersion thermostat for electric water heaters, with a brass sensing rod fitted to a dark brown thermoplastic control head. The head is embossed 'BIPOLAR SAFETY,' 'TYPE R-T-S,' and a '16A 250V~' rating, and carries a red rotary dial, a wiring diagram, and the THERMOWATT brand plate. It mounts through the heater flange with the rod extending into the tank to sense and control water temperature.
