Copper tube coil (pancake coil)

Brand: Sampo

Category: Copper Tube

Coiled copper refrigeration tubing (pancake coil) from Sampo, wound in a looser coil for HVAC line-set installation.

DESCRIPTION

This Sampo pancake coil is soft, coiled copper tubing for HVAC and refrigeration line-set installation, wound in a looser coil with fewer wraps than a standard tight pancake coil. It is supplied uncut so installers can pay out, cut, and bend the tube to length on site. Faint embossed lettering is visible along the tube surface, consistent with standard refrigeration-grade copper tube marking.
