Washing Machine Water Inlet Solenoid Valve (Triple)

Category: Washing Machines

Blue triple-solenoid washing machine water inlet valve with three color-coded outlets; coil label reads 220/240V 50/60Hz, DC62-00266E.

DESCRIPTION

This washing machine water inlet valve is a triple-solenoid unit in blue plastic, with one threaded inlet port at the top and three color-coded barbed outlet spouts (blue, green, and blue) branching from the manifold body. It is driven by three cream-colored solenoid coils, and the printed coil label reads 220/240V, 50/60Hz, part number DC62-00266E. It mounts via the tabs at the coil bases and is used where three fill lines must be switched independently.
