Washing Machine Agitator Gearbox (Top-Load Transmission)

Category: Washing Machines

Washing machine agitator gearbox: white plastic gear housing with splined shaft and blue finned agitator wheel.

DESCRIPTION

This washing machine agitator gearbox is a top-load transmission unit combining a white plastic gear housing with a splined metal output shaft and a blue plastic finned agitator wheel. The finned blades attach directly to the gearbox body, and the splined shaft connects to the machine's drive system. It is supplied as a complete gearbox-and-agitator assembly for top-load washer transmissions.
